PURE WATER SUPPLY FOR BRAINERD AIM OF BOARD

LOUIS P WOLFF AS CONSULTING ENGINEER

St. Paul Engineer will Investigate Present Plant and New Tests and Prepare Plans

Boom Lake Area will Include Electric Pumping Machinery, Surface Reservoir, Stand-Pipe, Etc.

The Water & Light board, at the special meeting Monday night, initiated another step which marks Brainerd being decidedly nearer a long sought goal—a pure water supply, and, if present calculations do not fail, Brainerd citizens will shortly have an opportunity to once and for all relegate into the discards or junk-pile the present water supply system and accept in its place not only a modern and sanitary one but an economically operated one.

Just two years ago the board, with the assistance of the Cuyuna Range Power Co., made an exhaustive test of the Spring Bay site, on the west side of Mississippi river near Gilbert lake, but the chemical tests failed to support the quality, and the pumping tests for quantity did not augur as well as was desired.

This work was followed by drilling at different points along the east shore of the river but nowhere were the results satisfactory or promising except at Boom lake, and there extensive drilling and tests showed water acceptable to the State Board of Health, of suitable composition for industrial purposes, in sufficient quantity, in a bed promising a lasting supply, and at a place easily permitting additions or extensions to the plant.

During the last six weeks the board discussed this subject and site with a large number of reputable consulting engineers for the purpose of engaging one proficient and successful in such work. The city council authorized the board to expend money for that purpose, and last night the board engaged Louis P. Wolff, consulting engineer of St. Paul.

Mr. Wolff will investigate the present Brainerd plant and system and the new tests referred to above and then decide on the best system for Brainerd and prepare plans and an estimate of costs. If the Boom lake area meets this final test, the plans will embrace a collecting system for water from underground sources, electric pumping machinery, a surface reservoir, elevated stand-pipe, many new water mains to replace worn mains, and meters. When these general plans are accepted by the board, the council will be asked to prepare for and set a date for a special election to authorize the issuance of bonds.

When the bond issue is ratified, Mr. Wolff will prepare the final plans and specifications and superintend all the construction work, which will be divided into portions to permit many contractors to bid.

Russia will Shoot Down Traitors and Spies to Stop Rout

(By United Press)

Petrograd, July 24—Russia will shoot down traitors and spies, and with full power given to invoke bloodshed to stop the rout of the southwest army it is expected that Minister of War Kerensky will order the loyal troops to shoot without mercy their fellow soldiers who are yielding to the German propaganda of mutiny.

Let Baby Die Because Nature Made Mistake Again Refuse Operate

(By United Press)

Chicago, July 24—Dr. J. H. Haiselden, who let a baby die because nature made a mistake, again decrees that nature should be allowed to rectify its own errors and will not operate on the infant daughter of William Meter Cere. The child's skull cap is missing and it has a diminutive brain denoting imbecility, and no neck. There is a possibility that the baby could live if the doctors operated but its life would be one of misery to itself and others. The doctor says that no surgeon would be justified in prolonging an absolutely worthless life. The death of the child is momentarily expected.

Illinois Farmers Demand Exemption of Pres. Wilson

(By United Press)

Chicago, July 24—Illinois farmers demand exemption from the draft as they all expect to be farm help, and have forwarded resolutions to Pres. Wilson.

Approve Giving Supreme Authority Provisional Govt.

(By United Press)

Petrograd, July 24—The representatives of all Russia unanimously approve the delegation of supreme authority to the provisional government and confirms all measures which the socialist cabinet makes.

Investigate Reports Farmer Socialists Plan to Resist Draft

(By United Press)

Baile, Okla., July 24—The federal authorities are investigating the reports that the farmer socialists are planning to forcibly resist the draft, as it is believed that arms have been mysteriously shipped in.

Requisitioned Six Oil Tanks Meet Navy Fuel

(By United Press)

Washington, July 24—The navy department has requisitioned six oil tanks to meet the urgent navy fuel orders.

640 Millions for Air Planes

(By United Press)

Washington, July 24—The aircraft production bill is signed and \$640,000,000 is released for building airplanes.

MISS KATHERINE FORCE.

Beauty Studies Shorthand to Aid U. S. in the War.

Photo by American Press Association.

Miss Force, who is the sister of Mrs. Dick, formerly Mrs. John Jacob Astor, and a noted beauty, has stirred the society colony at Narragansett Pier by renouncing social gayeties and devoting her time to studying stenography with the view of volunteering for government work. Other members of the smart set are talking of following her example.

Roads Ordered Cease Charging on Long Haul

(By United Press)

Washington, July 24—The interstate commerce commission has ordered all railways engaged in interstate commerce to cease charging or to proportionately lower rates from the eastern to the Pacific coast to conform to the rates on goods from the eastern to mid-continent points, effective October 15.

Vote of Credit Makes a Total \$25,759,120,000

(By United Press)

London, July 24—A vote of credit for \$3,150,000 introduced in the house of commons makes a total expenditure for war of \$25,759,120,000.

SELECTIVE ARMY HAS BEEN DRAWN AT WASHINGTON

Order for Liability for Service Established by Historic Lottery.

258 FIRST NUMBER OUT

Secretary Baker Takes Out Initial Number—Drawing Continues All Day Friday and Throughout Night.

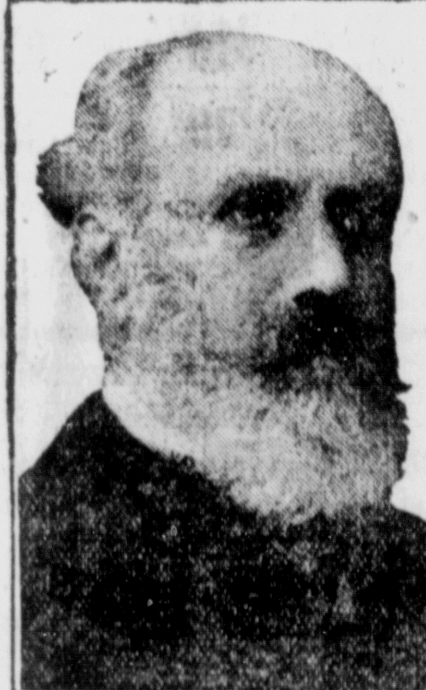

Long List of Numbers Given in Order as Drawn, From Which Those Who Will Be Called to Serve in First Army Will Be Selected.

Washington, July 21.—The drawing for the big United States army was not completed until early Saturday morning. The drawing began at 9:45 Friday morning, and continued throughout the day and night. Altogether 10,500 numbers were drawn from the big fish bowl. It was officially stated that the first 1,000 numbers drawn represented more than 1,000,000 men, and it is not considered probable that men representing any number drawn after the first 2,000 will be called before any exemption board for the first army. The first eight numbers were drawn respectively by Secretary of War Baker, Senator Chamberlain of the senate military committee, Congressman Dent of the house military committee, Senator Warren and Representative Kahn, ranking minority members of the senate and house military committees; Maj. Gen. Tasker H. Bliss, acting chief of staff of the army; Maj. Gen. Enoch Crowder, provost marshal of the army; and Major General McCain, adjutant general of the army. After the first eight numbers had been drawn the regular tellers took hold, and worked through until the long task was completed.

In only a small number of the largest districts will the numbers above a few thousand affect registrants, of the 4,557 registration districts throughout the country the largest has something over 10,200 numbers, while the smallest has only about 185, and the average is about 3,000. As the drawing proceeded, 157 numbers were withdrawn before one low enough to affect the smallest district was drawn.

PRINCE VON RADOLIN.

Former German Ambassador at Paris is Dead.

Prince von Radolin, former German ambassador at Paris, died on his estate near Posen.

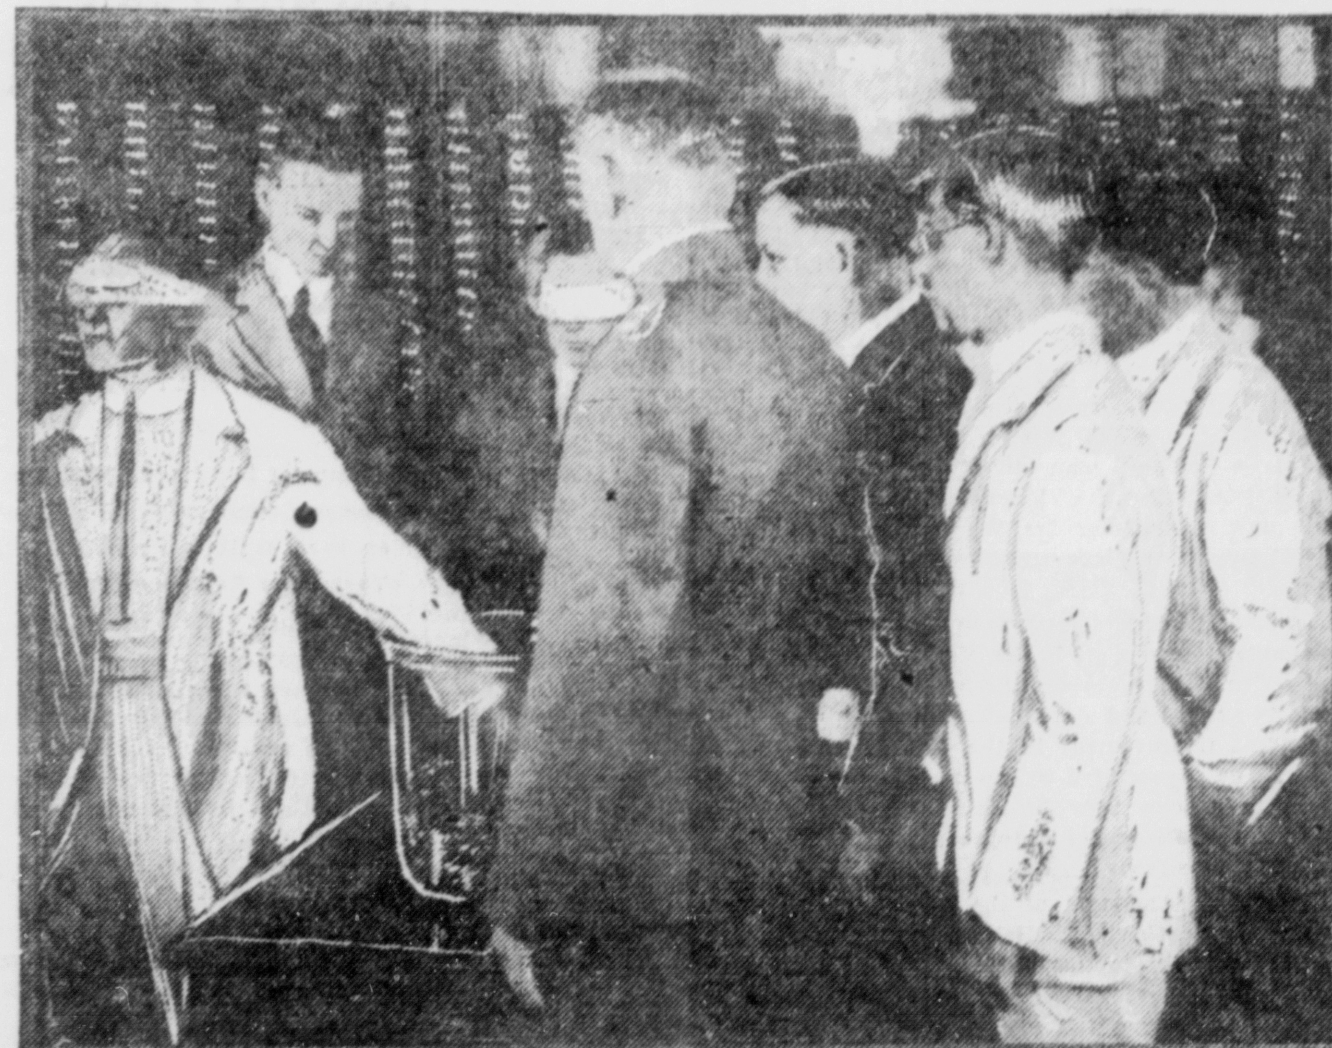

It was 126, placing 4,557 men numbered 126 on their local lists as 157th in order of liability.

The following list shows the numbers in the order in which they were drawn. The first number in each case represents the order in which the second, or red-ink registry, number was taken from the bowl. Four numbers are given in each line. Beginning with the first number, which was drawn by Secretary Baker.

Secretary Baker, Blindfolded, Takes First Number in Draft

Secretary of War Baker, in the presence of General Crowder and members of the Senate and House military affairs committee, drew the first number of the great draft when he took out from the bowl the first black capsule. It was number 258.

STATE POTATOGROWERS TO MEET IN CITY SOON

Accept the Invitation Extended to Them by the County Federation of Farmers' Clubs

Expected to be Held at the Time of Northern Minnesota Development Association Meeting

Shipping Board Resigns, Sweeping Steps End Delay

(By United Press)

Washington, July 24—President Wilson has accepted the resignation of Col. Goethals and Capt. White and the shipping board asks Chairman Denman to resign, naming Admiral Capps naval constructor in Goethals' place, Brainbridge Colby of New York in White's place, with Edwin Hurley of Chicago as chairman. These sweeping steps are taken to end the delay in building the mercantile marine, and the board will start with a clean sheet President Wilson explains.

Denman Resigns

Washington, July 24—Chairman Denman has sent his resignation to President Wilson.

Trying to Save Country Against Anarchy, Kerensky

(By United Press)

Petrograd, July 24—We are trying to save the country against anarchy says Dictator Kerensky in an interview, and defending the principle of concentration of power in the hands of the provisional government. "We must stop retreat, check economic disorder and restore finances, and the people must forget personal interests and put state over all. The situation at the front is serious and demands heroic measures."

County Agent E. A. Colquhoun is in receipt of a letter from A. G. Tolaa, secretary of the Minnesota Potato Growers Association, which accepts the invitation of the County Federation of Farmers Clubs for the potato growers to hold their convention in Brainerd.

The time that the convention will be held is not decided yet, but it is expected that it will immediately precede or follow the convention of the Northern Minnesota Development association which is to be held in Brainerd this fall.

The Minnesota Potato Growers association has been organized for two years. The first two conventions were held at the University Farm, but it was thought that more good could be accomplished by holding the convention in the potato growing section of the state. The fact that several hundred samples of potatoes will be exhibited by the boys and girls in connection with the development convention, was a special inducement for the potato growers to come to Brainerd.

The program and premiums have not been decided upon as yet, but it is expected that each county will be requested to exhibit at least ten and not more than twenty samples of potatoes.

Mr. Tolaa is busy inspecting seed potato plots at the present time but states that he will get busy with the program immediately on his return to the University Farm. Mr. Tolaa will spend several days in Brainerd preceding the convention to properly arrange for the exhibit that is to be held.

War Department Prepares for Any Draft Riots

(By United Press)

Washington, July 24—The war department is prepared for any draft riots that may occur and conscientious objectors and pacifists are being watched. Newspapers are being watched carefully and the names of objectors are being noted in preparation for putting down any trouble.

Germans are Repulsed at Chemin des Danes

(By United Press)

Paris, July 24—Two further attempts of the Germans to storm the fresh lines northwest of Braye are repulsed by the defenders of Chemin des Danes lines, is official report.

New Billion Dollar War Budget is Asked

(By United Press)

Washington, July 24—A new billion dollar war budget was laid before congress, Sec. McAdoo telephoning the senate leaders of the sum to be asked by the administration.

Keve Captured

(By United Press)

Berlin, July 24—Kevo is captured after storming of the Russian lines over a front of five kilometers, the enemy retreating as far as the Carpathians. "We are pushing forward over a front of 93 miles," says a dispatch.

TUESDAY, JULY 24TH**EMPRESS THEATRE**

Time 7:15 P. M. Admission Free

Mr. and Mrs. Archie Purdy have
gone to Bozeman, Mont., to attend
the wedding of their son, Wilfred
Purdy, to Miss Madeline Phillips,
which takes place on Thursday eve-
ning.

One insertion of a want ad recov-
ered the tire lost by Wm. E. Brock-
way on a country road. Bob John-
son found it and joshed Mr. Brock-
way, saying he couldn't use it any
way as he only had a Ford.

Mr. and Mrs. G. A. Schumacher of
Rock Island, Ill., Miss Louisa Doer-
fler of Moline, Ill., Mrs. Arthur Sor-
enson, were Brainerd visitors. Mr.
Schumacher owns a large stock farm,
"Grand View" farm, at Pillager.

Wm. Denny, Duluth, well known
passenger conductor of the Northern
Pacific Lake Superior division, was
in Brainerd visiting old friends. At
the N. P. hospital he called on a
fellow conductor, Charles Farmer.

One of Graham's cement houses for
rent. 620 North 6th St. 281f

Mrs. F. S. Parker, Mrs. Clyde E.
Parlier of Brainerd, Dr. and Mrs. G.
E. Brown and son, and the doctor's
mother, Mrs. George Brown of Miles
City, Montana, have returned from
an automobile trip to Itasca park.

Mrs. Julia Finne of Duluth, who
has been visiting at the home of Mr.
and Mrs. Charles Sherlund and re-
latives, will leave today for Minneap-
olis where she will be employed at
the Northwestern Telephone Ex-
change.

Mr. and Mrs. A. N. Mattson of De-
troit, Minn., motored to Brainerd
and were guests of Mr. and Mrs. Saxrud.
They reported the roads in fine
shape, returning home today. Mr.
Mattson is the owner of large marble
works in Detroit.

Broadway paving is progressing
well. Contractor Dahl of Duluth, be-
ing in charge. Three blocks are
completed and half of another. In
another week all North Broadway
will be finished, but traffic will not
be allowed on the street for some
time.

Mr. and Mrs. Claud Burton of In-
dianapolis, visited Brainerd return-
ing home today. Mr. Burton was
formerly a Brainerd man but it has
been 16 years since he visited here.
He is now yardmaster for the Big
Four at the above place and is pro-
gressing.

The management of Lum park has
made arrangements with the Model
Laundry to have the towels and bath-
ing suits washed and sterilized daily.
This great improvement in the ser-
vice will be appreciated by the pub-
lic. Bathers can now be sure of
receiving towels and bathing suits
absolutely free from germs.

Miss Selma Anderson of the gar-
ment section of the H. F. Michael Co.
left today for Chicago where she will
attend some lectures on salesmanship
and study the new fall styles pre-
paratory to assisting Mr. Michael in
the selecting of the fall garments.
Mr. Michael will leave the last of
the week and begin purchasing Mon-
day.

KEEP COOL

Why swelter in hot, old garments when we have for you so many filmy, beautiful things to wear? "Keep cool."

When you think of buying things for summer, think of our store. We stand for quality. "Keep cool."

When you are allured by "astounding bargains," remember that our reputation was not made in a moment. It is the result of treating our patrons right ever since we have been in business. "Keep cool."

THE STORE OF QUALITY

PRESIDENT OBJECTS TO WAR ADVISERS

Washington, July 24.—President Wilson asked congress to eliminate from the food control bill a senate amendment creating a joint committee of senators and representatives to confer and advise with executive officials on war expenditures.

In a letter to Chairman Lever of the house agricultural committee the president pointed out in frank terms that such a committee would be likely to harass constantly those directly responsible for the conduct of the war.

Retention of the section, he notified congress, he would be compelled to interpret as signifying "a lack of confidence in myself."

Mr. Lever and other house leaders are understood to be ready to make a determined fight against the provision, which was voted into the bill near the close of the long senate debate.

WILSON ORDERS DRY ZONE

Proclamation Closes Saloons Near Military Camps.

Washington, July 24.—Establishment of a five-mile dry zone around all military camps was ordered by President Wilson.

At the same time the president under authority granted by congress prohibited the keeping of "houses of ill fame, brothel or bawdy houses" within five miles of any military camp, station, fort, post, cantonment, training or mobilization place. The president's proclamation says, in part:

"No person shall in, or within five miles of any military camp, sell or barter, directly or indirectly, any alcoholic liquors, including beer, ale or wine, to any person, except that this prohibition against serving or giving alcoholic liquors shall not apply to the serving of wines or liquors in a private home to members of the family or to bona fide guests therein other than officers or members of the militia force."

The prohibition does not apply to any part of an incorporated wet city or town "distant more than half a mile from said camp," the president's order says.

60 PER CENT OF LIBERTY LOAN ALREADY PAID.

Washington, July 24.—More than 60 per cent of the \$2,000,000,000 Liberty loan already has been paid into the treasury. The treasury statement, the first issue in twenty-four days, shows payments June 30 on the Liberty loan account of \$1,385,824,456.

FRENCH MINISTRY UPHELD

Senate Unanimously Passes Vote of Confidence.

Paris, July 24.—The senate in secret session has unanimously voted confidence in the Ribot ministry.

The upper chamber again took occasion to thank the French army and the allies and approved the government's declaration of its plans for conduct of the war.

Hope was expressed that all propa-
ganda against the discipline and security of the nation had disappeared.

SINKS BIG GERMAN DIVER

American Steamer Fires Thirty-five Shots at Boat.

Paris, July 24.—An American steamer recently sank a large German submarine, according to a dispatch to the Temps from Havre.

While on a voyage from the United States the steamer was attacked by a submarine and, replying to its fire, sent thirty-five shells at the underwater boat, which disappeared beneath the water.

MILL CITY MAN DIRECTOR

Will Have Charge of Food Supplies in Northwest.

Minneapolis, July 24.—Frank L. Carey, vice president of Hallet & Carey, grain commission dealers in the Chamber of Commerce building, has been selected by Herbert C. Hoover as administrator of foods for the Northwest.

While Mr. Carey's title has not been established, and will not be until the food bill is passed by congress, he will have complete governmental control of all foodstuffs shipped into St. Paul and Minneapolis for consumption in this country and for export abroad to the allies. He will say how much food is to be kept here and how much may be shipped out. As to many of the food products his recommendation will fix the price to be paid the farmer and that which the consumer will have to pay.

The outstanding feature of Mr. Carey's work will be control of the flour and wheat situation.

HIGH PRICES AFFECT SOUTH DAKOTA MINES

Washington, July 24.—South Dakota mines in 1916 produced \$7,460,489 in gold, 215,291 ounces of silver and 35,466 pounds of lead, with a total value of \$7,604,534, which was a small increase over the production of 1915 and the largest output since 1912.

The output for the first six months of 1917, according to Charles W. Henderson of the United States geological survey, indicates that for the whole year 1917 there will probably be a reduction of \$200,000 in gold, as the Wasp No. 2 and the New Reliance mines and mills, both closed at the end of 1916, were idle during the first six months of 1917 and probably will not resume operations this year. Work will probably not be resumed at the Bismarck mine and mill, idle since 1914.

The high price of machinery, zinc and chemicals necessary in the cyanide process and reduction of the cyanide precipitates to bullion may force some of the other properties to close before the end of 1917. The Homestake mines and mills will probably continue steadily throughout the year.

EXPORT POLICY HITS NEUTRALS

American Embargo Affects European Nations.

ACTION IS ONLY TEMPORARY

Shipment of Supplies to Northern European Countries Will Be Resumed as Soon as It Is Possible to Place Them on a Rationing Basis.

Washington, July 24.—The American government's control of exports has resulted in an absolute embargo on cargoes destined to the Northern European neutral countries.

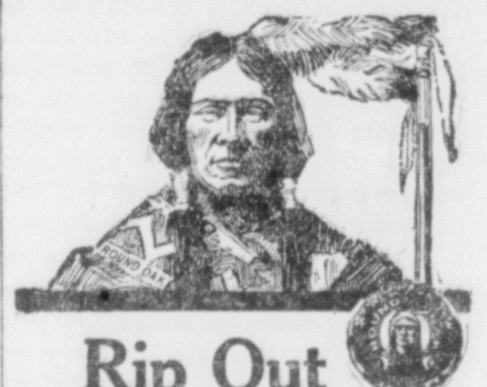

Since the control was made effective a little more than a week ago not a single cargo, it was learned, has been licensed for shipment to these nations.

The policy enforced is described as temporary, to be changed as soon as it is possible to put the neutrals on a rationing basis.

Despite submission of much information by the diplomatic representatives of the neutrals affected the government considers that it lacks convincing evidence regarding export from these countries to Germany and

PRINTERS' INK

Has done more towards nursing a sick or stagnant business than any known remedy. To get the desired results one should learn the real value of this great commodity and its relative merits when employed in the right way.

**Rip Out That Dirty Unsatisfactory Fuel-Hog Furnace!**

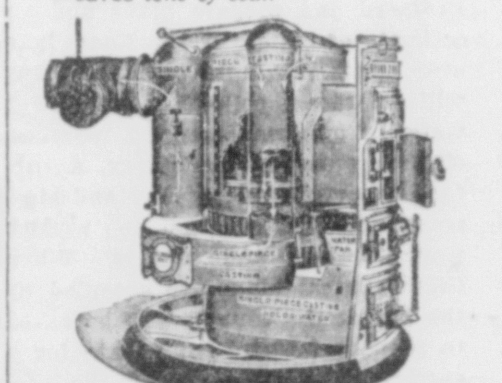

Let us replace it with the heating system that will soon earn its investment in fuel and trouble saved—that will deliver warmth and comfort, be dependable and repair-free for years to come—will safeguard health. It's the

ROUND OAK Moistair Heating System

No more hot, stuffy, dry-as-a-bone air—that reeks with hidden disease germs—not with the Round Oak! Because it

Automatically Ventilates and Humidifies

It floods the home with clean, warm, fresh, moist air, free from dirt, dust and gas. Durable too—easy to "tend"—saves tons of coal.

The Round Oak Moistair Heating System
Made by Makers of the Genuine ROUND OAK STOVE

—and Now Being Nationally Advertised

More than 60,000 users of the Round Oak Moistair Heating System testify to its matchless saving.

Note above its rugged construction. Bear in mind it's the most economical heating system on the market. Now come and let us present the proofs!

WOMAN'S REALM

British Dress Reform Alarms English Women

(By United Press)

London, July 7 (By Mail).—More man is willing to wear semi-military breeches and other "rational" clothing if women will wear 'em, too. Then, the man-person figures, neither sex will be apt to do any tit-tit-ting over the shape of the other's legs.

English tailors have devised a uniform for civilian wear with the hope of simplifying clothes-production.

It consists of tunic, slightly military breeches, resembling those worn by the cavalry, puttees or stockings, and cap.

Many people, men and women showed alarm over the suggested reform and were promptly accused of hiding bow-legs, knock-knees and absent elbows. The owners of the shapely underpinnings, especially the men, are perfectly willing to have a showdown.

One of the rules of the "rational dress" movement is that pads don't go.

USE COLD WATER

Housewife Tells Dispatch How to Avert Disasters With Jars While Canning Peas, Etc.

An interested housewife who has been following the canning articles printed in the Dispatch tells how to avoid many of the disasters resulting in broken jars. Fill the jars cold and start the boiling with cold water. Measure your time from the time the water starts boiling.

Mrs. Baker, the demonstrator, placed her jars in boiling water and broke three. The housewife using the cold water system canned twenty pints of peas from a bushel. She has read all Dispatch articles and the many government bulletins on canning.

HUBERT YOUNG LADY MAREJES

Miss Tina Berg United-to George P. Abear at Brigade Lake, British Columbia

George P. Abear, of Brigade Lake, British Columbia, and Miss Tina Berg, lately of Hubert, Minn., were married at the Methodist parsonage on Saturday evening, June 30th, at 7:30, Rev. H. A. Ireland performing the ceremony. Mr. and Mrs. Abear will reside at Brigade Lake, British Columbia.

The above item from a Canadian paper will be of interest to friends of the bride who was a resident of Hubert and whose parents and other relatives live at Hubert. The groom is a son of Mrs. Seymour Clark who lived in Brainerd for many years and who removed to Canada some years ago.

Mrs. C. S. Clark writes the Dispatch that her oldest son, Joseph Carl Abear, is still in England having been discharged from the hospital in February but that he will always carry some shrapnel about with him but otherwise he has recovered from his wounds received in fighting with the Canadian troops. He has been in steady training ever since but it is not known what his future duties will be.

ICE CREAM SOCIAL

That Given by Methodist Church of Barrows Was a Great Success, Many From Brainerd There

The ice cream social given by the Methodist church of Barrows on Monday evening drew a large crowd and was a great success. Many Brainerd people motored to the social and were well pleased with the cream and cake served. The social netted a neat sum. John Wahl of Duluth entertained a party of Brainerd friends at the social.

Pretty Girls: Here's Your Chance in Films

Pretty Girls, here's your chance. Bryant Washburn, Essanay's star, has adopted a policy of having pretty girls, only in his supporting companies.

"A director told me one time," he said, "that a girl's beauty varies inversely with her acting ability, as a general rule; in other words, the more homely the girl, the better she can act. That may be true, but I have found a number of beauties who were excellent actresses, and I believe the public prefers pretty girls, even though work is slightly faulty. I am going to try them out, anyway."

Fine Cast Supports Gertrude McCoy in "The Lash of Destiny," Feature at the Best Theatre

A cast of unusual strength and brilliance is seen in support of Gertrude McCoy, the star of the first Art Drama, "The Lash of Destiny," which will be shown at the Best Theatre tomorrow. The story of the picture is a novel one, and the lesser characters are scarcely less important than the leads in the development of the plot.

In the picture Miss McCoy plays the part of a country school teacher who goes to the city to develop her voice, which shows great promise. While there, she obtains work in a cabaret, and is subjected to all temptations that surround a young woman in her position. "The Lash of Destiny" is an admirable vehicle for Miss McCoy, and affords her splendid opportunity to display her versatility.

Methodist Ladies' Aid

The Methodist Aid will be entertained on Wednesday afternoon instead of Thursday, by Mrs. Wm. Sasser and Mrs. Frank Jordan at the church parlors. Everyone is invited.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.—Adv.

OCEAN FREIGHT RATES TO DROP

United States and Great Britain May Operate Ships.

ALLIES AGREE TO PROGRAM

Plan Will Place English Speaking Nations in Control of the Entire World's Shipping and Neutral Nations Will Be Forced to Co-Operate

Washington, July 24.—Radical revision downward of ocean freight rates has been agreed on in principle by shipping commissioners representing the United States and Great Britain.

Copies of a proposed agreement, under which the two governments not only would make sweeping reductions in present prohibitive rates but virtually would take over the operation of all allied merchantmen in the Atlantic, have been placed before the state department and the British foreign office for approval.

All the allies, with the possible exception of Japan, have signified their willingness to accept the program.

In the case of Japan it is proposed to have a Japanese merchant fleet of as many ships as possible placed in the transatlantic trade to help make ineffective the submarine warfare.

Neutral Shipping Affected.

Neutral shipping, under the proposed agreement, also would be forced largely into channels designated by America and Great Britain.

This would be made possible by the enforcement of regulations denying to neutral ships supplies of bunker coal needed by allied merchantmen, unless the neutral ships agreed to make at least a portion of their sailings between American and allied ports.

With the program in effect the United States and Great Britain virtually would control the entire world's shipping, prescribing reasonable rates, far lower than those on some commodities now in effect, and designating sailings and voyages.

Thus the entire aspect of the world's ocean transportation system would be changed largely to meet the conditions caused by the submarine war.

Negotiations were begun at the instance of President Wilson.

TWO MEATLESS DAYS ARE ASKED IN CANADA.

Toronto, Ont., July 24.—W. J. Hanna, food controller, has issued a statement in which he suggests that no meat be served in hotels or restaurants on Tuesdays or Fridays and that no bacon be served on other days except at breakfast.

BIG CORN CROP FORECASTED

Expected to Greatly Exceed Last Year's Production.

Washington, July 24.—H. C. Hoover's food administration bureau gathering information from several official sources gives the official visible supply of corn in the United States for July 14 at 2,236,000 bushels, a decrease of 497,000 bushels during the week, or 13.1 per cent. The supply on hand for the same week last year was 5,219,000 bushels.

The July forecast for the 1917 United States crop is 3,124,000,000 bushels, as compared with a crop for 1916 of 2,583,241,000 bushels.

Two Sided Search.

"I can't give the duke any real money," said the prospective pain-law.

"There must be a dowry."

"Well, I kin put some purty fair property in his name."

"Do you object if we search the title?"

"Oh, no, I expect to do the same by the duke's."—Louisville Courier-Journal.

WOULD KNOW PEACE TERMS

New North Dakota Congressman Favors Publicity.

St. Paul, July 24.—John M. Baer, congressman elect from the First North Dakota district, in a statement issued at the Nonpartisan league headquarters in St. Paul, declared for "peace without annexation or indemnities." He insisted the allies should be made to avow a similar object and that if they refuse the United States should withdraw from the war. He also declared for government control and operation of all the great industries. Mr. Baer is on his way to Washington to take his seat in congress.

"President Wilson says the German people are a peace loving people," he said in his statement. "We also love peace. We are in this war for peace and not for war. The German people are crying aloud for peace without indemnities and without annexation of territory."

Sour Cream Dressing.

One cupful of fresh sour cream, one teaspoonful each of salt, sugar, pepper and mustard. Beat well and set in ice-chest two hours before using.

No. 2.—Melt one tablespoonful of butter; beat it with two egg yolks and one teaspoonful of onion juice. Add one cupful of sour cream, one-half teaspoonful of salt, one-fourth teaspoonful of cayenne and one-half teaspoonful of sugar. Use for cucumbers or cold boiled vegetables.

"What sort of fellow is Green?"

"Oh, he's all right when you get to know him."

"That, I presume, is a polite way of telling me that he's disagreeable."—Detroit Free Press.

Your Flag and my Flag!
And, oh, how much it holds
Of your Land and my Land
Safe within its folds,
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-kissed,
The Red, the Blue and White!
The one Flag—the Great Flag—
The Flag for me and you—
Glorified the whole world wide—
The Red, the White, the Blue!

NATION MAY INSURE OFFICERS AND MEN

Washington, July 24.—The federal government's plan for insuring officers and men of the army, navy and marine corps against death and injury while in service broadened in a complex program which would provide government allowance for families of soldiers and sailors and the rehabilitation and training of injured men to fit them for making a livelihood after the war.

The program was discussed at conferences among officials of the war, navy, treasury, commerce and labor departments, the labor committee of the Council of National Defense and the presidents and other high officers of leading insurance companies.

Issuance of insurance policies from \$1,000 to \$10,000 to officers and men at ordinary peace time rates, the government paying the extra cost, indemnities for total or partial disability and administration of the entire scheme by the government's war risk insurance bureau, which it at present insures officers and crews of American merchant vessels, are among the outstanding features of the proposed program.

MORE INDIANS ARE WANTED

Canadian Officer Says They Do Excellent Work.

London, July 24.—Canadian officers on leave here from the French front have informally recommended to American officials that American Indians be employed or enlisted for service with the American expeditionary forces. Manitoba Indians with the Canadians have done excellent work at scouting in No Man's Land.

"These Indians with us," said a captain with the Canadian forces, whose parents live in Philadelphia, "have performed services that never could have been performed by a white man. The Indian of North America has it in his bones to be a good fighter and a crafty one. We have them in nearly every regiment."

CIRCUSES AND FAIRS TO AID RECRUITING.
New York, July 24.—The managements of 2,999 county fairs to be held this summer and fall in all parts of the United States have agreed to assist the navy department in its recruiting campaign. Several of the larger circuses also have agreed to do what they can to aid recruiting.

TEXAS GOVERNOR ACCUSED

Special Session of the Legislature Is Called.

Houston, Tex., July 24.—A call for a special session of the Texas legislature to consider the filing of impeachment articles against Governor James E. Ferguson was issued by F. O. Fuller, speaker of the house of representatives. The action is the sequel of the so called "university muddle." In his call Mr. Fuller specifies four charges growing out of the fight over the university and the location of a new agricultural and mechanical school at Abilene.

RUSSIAN ARMIES LOSING GROUND

Lack of Morale Places Gains in Jeopardy.

MILITARY MEN ARE ANXIOUS

Teutons Are Taking Advantage of the Chaos That Reigns and Keeping Up Their Intensive Push Against the Slavs All Along the Galician Front.

London, July 24.—The situation in East Galicia and to the north of the Pripiet marshes for the moment is proving discouraging to the Russian government.

Added to the struggle it is having with the deserters in Galicia, who are still falling back nearly everywhere, comes the news that lack of stability among the men fighting against the Germans in the region of Smorgon and Krevo, southeast of Vilna, is giving the Russian government and military command great concern.

In a fierce attack between Smorgon and Krevo the Russians drove a wedge into the German line to a depth of two miles at various places and took more than 1,000 prisoners.

Petrograd announces, however, that the lack of morale of certain detachments of the Russians is placing the success in jeopardy, while Berlin, which admits that gains were made, asserts that already most of the captured positions have been retaken.

Teutons May Take Tarnopol.

Taking advantage of the chaos that reigns the Germans and Austro-Hungarians are keeping up their intensive push against the Russians all along the front in Galicia. The Germans are directly before Tarnopol. If they have not already captured this important pivot point east of Lemberg, which the Russians have held since early in the war, and also are advancing on both sides of the Dniester river and between the Stripa and Zlota Lipa, where they have occupied additional villages.

The Germans apparently have ceased their fierce infantry onslaughts against the French along the Chemin-des-Dames, in France, which have cost them dearly in men killed, wounded or taken prisoner, when compared with the extremely small amount of ground they gained.

The Canadians have taken another back at the German line protecting the coal fields south of Lens and again have appreciably advanced their line.

AIDS RUSSIA AND FRANCE

Total American Loans to Allies Is \$1,523,000,000

Washington, July 24.—The United States emphasized its faith in the Russian government by extending it a further credit of \$75,000,000.

This is the second Russian credit. The first, for \$100,000,000, was granted soon after the United States entered the war.

It is understood most of the \$100,000,000 already has been spent for railroad supplies and that much of the \$75,000,000 will be used for like materials.

Additional credits of \$60,000,000 to France also was authorized by Secretary McAdoo, bringing the total advanced to all allies to \$1,523,000,000, or more than half of the \$3,000,000,000 authorized by congress.

PAPER ASKS FOR PATIENCE

Bremen Organ Sees Day of Merchantmen Fast Passing.

Amsterdam, July 24.—The Sunday edition of the Weser Zeitung of Bremen, under the caption "Only Patience," places the net monthly loss through the submarine operations, after deducting new construction, at 700,000 to 750,000 gross tons.

From this the newspaper comes to the conclusion theoretically that in forty-five months' time the last merchantman will be sunk.

It adds for its readers' comfort, however, that England must give in much earlier, being already obliged to withdraw tonnage from the navy for mercantile purposes.

RAPS GERMAN CHANCELLOR

Milwaukee Paper Says He Does Not Represent People.

Milwaukee, July 24.—In an editorial the Germania-Herald, Milwaukee's strong German newspaper, denounces the stand of German Chancellor George Michaelis as being not representative of the German people. It expresses the hope the German people will take matters in their own hands. The Herald says the stand of Dr. Michaelis is a great disappointment in view of recent resolutions in the reichstag.

Father and Son Perish.

Ironwood, Mich., July 24.—In an effort to save his two sons from drowning in Burry Park lagoon, C. O. Anderson, trainmaster of the Soo line, lost his life. Only one of the boys was rescued. He was brought to shore by Mrs. Anderson.

Some Things for America to Consider

Here is the second of the series of articles on America's part in the war written by Professor Spencer Wilkinson of Oxford University for the United Press.

ARTICLE TWO.

London, July 6 (By Mail).—The officer should be the teacher and the leader of his men. Therefore the rule should be rigidly enforced that for an officer the indispensable qualification is a strong character and a liberal education. He must be a person whom the men will respect, for the private soldier gauges instinctively the spiritual ability of those who are set over him.

The military education of the officer must aim at making him a tactician. All the rest is of slight importance. The routine of the army, its methods of administration, the necessary rudiments of military law are picked up by the officer insensibly in the course of his military life. But unless he starts with clear and sound ideas of the essential points of tactics, of the art of fighting, of making the best of his men's weapons and the ground, he will be hampered throughout his career.

The U. S. government in forming a series of great schools for the tactical instruction of young men seeking to become officers is thereby laying the best foundation for its future army. Neglect of this matter at the beginning cannot possibly be remedied by any subsequent measures.

Napoleon said, "The ideal army would be that in which every officer, according to his rank, should know exactly what he ought to do in any situation in which he might find himself."

In the training of the men it is impossible to exaggerate the importance of good shooting. Prince Hohenzollern, a great Prussian artillery commander of the last generation, was asked what are the three great functions of artillery and replied:

"The first is to hit, the second is to hit, and the third is to hit."

In spite of the immense development of the power of the gun which has marked the 20th century, in spite of the return to hand grenades, bombs and trench mortars, the most deadly weapon is always the bullet—the weapon of the infantry soldier.

For one man who falls to the bayonet, for ten men who fall to the shell, hundreds fall to the bullet. But the bullet does not hit because the man pulls the trigger. It hits because he knows how to take aim. This is the hard, material fact, but there is a more potent spiritual fact. During the ten years in which I was the trainer of a company of infantry I discovered, as others had done before me, the relation between the bullet and the soldier's soul.

It is not an easy thing for a man lying down with a rifle in his hand to hit the figure of a man's head 600 yards away. It requires a great deal of learning and a great deal of practice. If the young recruit is not carefully taught he receives the impression that it is impossible for him to hit the mark and that when he does it is pure accident. Take a man in that frame of mind into the front of battle, where the enemy bullets are whistling in his ears and where men are falling about him, and he will be terribly anxious to be somewhere else.

But if a man's practice has proved to him that he can hit the mark with two bullets out of three, he will be in a very different state of mind. He will be sorry for the enemy, not for himself. He will feel sure before his magazine is emptied that particular enemy will be off the board.

The infantry soldiers of the small British army which Lord French took to France at the beginning of the war were able to shoot straight and they knew it. When the Prussians came on they mowed them down. If they had not been good shots their courage would have availed them nothing.

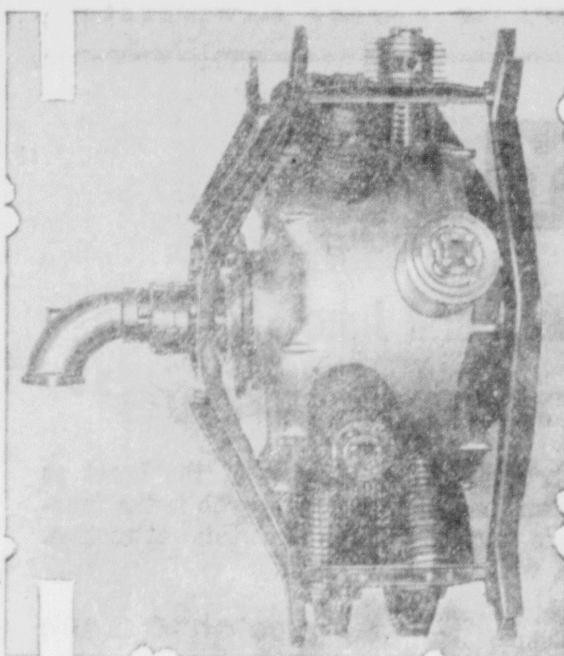

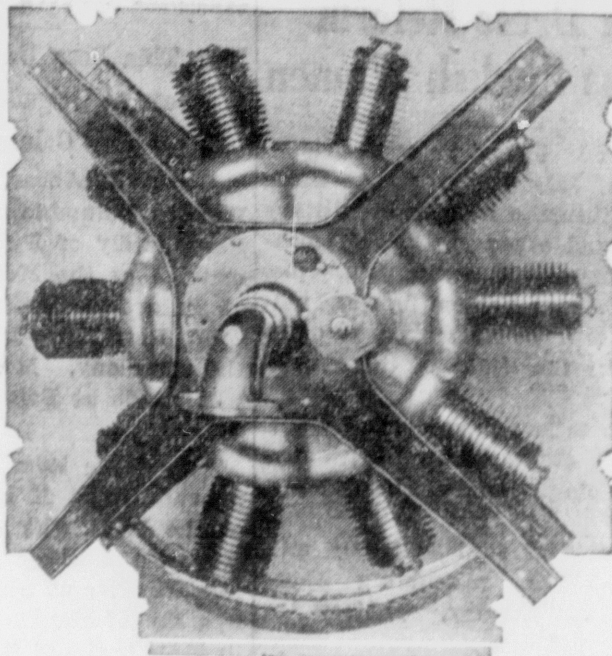

On the first day of the battle of Gettysburg General Doubleday was very anxious to hold a forward position at the Chambersburg pike. He ordered up Stone's brigade of Pennsylvania troops and Stone formed his men behind a ridge sheltered by a stone fence. It was a hot place. The whole ground was alive with bursting shells. The men said "General, we've come to stay." Those men died where they stood.

VESSEL SOLD TO RUSSIA

Boat Built at Manitowoc, Wis., to Be Used in War Service.

Chicago, July 24.—The steel passenger steamship Nevada, 230 feet long and 42 feet beam, built at Manitowoc, Wis., in 1915, was sold by the Goodrich Transit company to the Russian government for war service.

The boat at present is at Montreal and will be remodeled before being turned over to Russia. The price paid is said to be \$700,000.

This is the Aeromotor which will Win the War for the Allies

IT IS AND WILL BE AN AMERICAN PRODUCT FROM START TO FINISH.

Invented by the celebrated automobile and aeroplane engineer LEE W. OLD-FIELD; it will be manufactured at DULUTH, Minnesota, by American industry from American materials with working capital provided by the American people.

It will be America's greatest single contribution to the great War.

Tremendous profits await those who make possible the speedy development of the industry to produce these aeromotors.

Five thousand dollars profit upon each motor produced is the present basis of production!

And, in addition, those who invest in this industry, will have the satisfaction of knowing that while their money is working hard and well for them, it is working equally hard and equally well for the nation and for the cause of democracy in world-civilization.

The corporation to develop the industry is in charge of engineers of international reputation under the business leadership of manufacturers who have made marked success in their own lines.

It is incorporated under the laws of the State of South Dakota. The authorized capital stock is \$2,000,000, consisting of \$1,000,000 Preferred, and \$1,000,000 Com-

mon, of the par value of \$10.00 per share each.

The Preferred stock is 7% cumulative, earning an additional dividend of 3% after a dividend of 7% has been paid upon the Common stock. It is Preferred, both as to dividends and assets of the Corporation. All stock issued is fully paid and non-assessable.

The present stock issue is to provide the necessary actual working capital of \$200,000. All remaining stock is to be taken over by the Corporation and held as non-participating, treasury stock until issued, when this stock will first be offered to stockholders of record in proportion to the shares already held.

The present issue is offered for subscription, subject to withdrawal without notice, on the following basis:

Preferred Stock - - \$10.00 per share
Common Stock - - 7.50 per share
(\$10.00 Par Value)

This offer is subject to change without notice.

As soon as sufficient capital is in the Treasury to guarantee swift and economical production, the subscription will be closed.

The Local Office of the Company will gladly furnish full information and facilitate personal inquiries.

RUSSIAN TRADE IS LARGER

Imports Not Affected by German Submarines.

Washington, July 24.—That Germany's destructive U-boat warfare has not cut off Russia's foreign trade is shown by the fact that Russia imported \$37,000,000 in goods in 1916, an increase of 100 per cent over 1915, according to statistics of the department of commerce.

This total does not include munitions, figures for which are not available.

Russia received these goods through two routes, Archangel and Scandinavia-Finland. In 1915 goods were entered at forty-four Russian ports. There has resulted a great congestion of freight traffic on the railway from the Archangel port.

The most important contributors to the Russian market in 1916 were the United Kingdom and the United States.

New Enlistment Rule.

Washington, July 24.—Registrants under the selective draft law are not eligible for voluntary enlistment in the regular army of the national guard after their names have been posted by local exemption boards as summoned for exemption.

500 MEMBERS FOR CHAMBER COMMERCE

Campaign Being Mapped Out, Meeting Called and Work Will Soon be Under way

ENTHUSIASM TO YIELD RESULTS

Memberships, Following Secretary's Instructions, Are For One Year Each

The membership committee of the Chamber of Commerce will meet Wednesday afternoon at 5 o'clock sharp to outline plans for a comprehensive canvass of the business men of the city and all interested in the work of the organization, with an idea of increasing the membership to at least 500 for the new fiscal year beginning July 1, 1917.

Every member of the committee is expected to be present as this matter has been put off from time to time because of other things coming up to take the attention of the chamber.

The response to a circular letter asking renewals and sent out July 1, was gratifying and a substantial membership is already on the books in the shape of renewals and memberships secured since the three-year contract campaign was inaugurated three years ago.

The renewals are for one, instead of three years on the recommendation of the secretary and this plan seems to meet with general approval.

"Make your organization of such value that thinking men in all walks in life will seek a membership in it and feel it a duty to their home town and community to do their bit to support it," is the way Lincoln put it to the directors when this matter was discussed, and sentiment seems to favor the suggestion.

Members of the membership committee will be expected to meet Wednesday, July 25 at 5 P. M. sharp.

BRAINERD'S ODDEST STORIES OF TODAY

Woman driver ran Regal car into curb at Oak and Broadway, bent front axle and broke a wheel Monday evening. Sherlund's patching it up.

Man borrowed battery while his was being charged. No room to set same under seat and put it on floor between two front seats. Wire not properly wrapped and friction of seat wore away wire covering and flame shot out and burned his pants.

Two cars returning from Little Falls. One fellow's lights out in storm and he roled to town in the dark. Other out of gasoline until a good Samaritan ran back and got some at Fort Ripley for him.

Whatever you do, be a good friend to your battery. Let Johnson look at it every week.

Dig into the past experiences of every man driving a car and you will find broken fenders, bent axles, starved batteries, broken headlights, bumped garage doors, uprooted trees, torn down stumps, trips into the ditch and other performances of a pleasing nature, pleasing to the garages in Brainerd.

21.9 cents is marked on the signs at the filling stations. That's the cost per gallon today.

MASONIC PICNIC

Eastern Star and Aurora Lodge Giving Picnic to Which all Masons and Stars are Invited

On Thursday, July 26, the Eastern Star and Aurora Lodge will join in giving a picnic at Lum Park to which all visiting Masons and Eastern Star members are invited. The arrangements have been completed for a very enjoyable occasion and it goes without saying that there will be no lack of fun or frolic.

Members are asked to bring their baskets, and coffee and ice cream will be furnished at the park.

Automobiles will be at the Iron Exchange building at 1:30 to take those participating to the grounds.

BIDS WANTED

Bids wanted on 400 or more tons of coal, to be delivered from Aug. 15th, 1917, to July 15th, 1918, as we call for same. All bids must be in this office on or before 6 P. M. Aug. 1st, 1917. All bids subject to rejection.

HOTEL HANFORD.

PARALYSIS CLINIC HERE

Eight Cases Examined the First Hour and a Half at Knights of Columbus Hall

MUSCLE INSPECTORS ARE BUSY

Each Patient Given a Thorough Examination and Course of Treatment Mapped Out

The infantile paralysis clinic of the State Board of Health opened in the Knights of Columbus hall in the Citizens State bank building at 10 o'clock Tuesday morning and in an hour eight cases had been examined, patients being present from Brainerd and distant country places.

Mrs. C. W. Green, of the Lovett school of Boston, conducted the examinations, assisted by three muscle inspectors, five nurses and stenographer. Local doctors and the local board of health are cooperating in every way possible to make the clinic a success.

It is the first time in the history of Brainerd that a free clinic of this nature has been held under the State Board of Health auspices and Brainerd is also greatly interested because the Brainerd member of the State Board of Health is Dr. Werner Hemstead, who has done much to give publicity to the clinic.

The first case was that of a small girl and doctors were present to state that no paralysis was present.

Other cases whose parents permitted the use of their names, were two children of J. F. Dykeman. His son aged 8 has both legs paralyzed and is using crutches. In the examination made, nurses named the muscles which needed exercise and planned a course of treatment for the little fellow. His sister, Helen, age 5, who also had the disease, had almost completely recovered.

Elizabeth, age 5 and a half years, daughter of Fred Kinsmiller, Brainerd, was examined. Her abdominal muscles were found to be weak.

The clinic came from Duluth where cases from the city and range country examined numbered 78.

A history is taken of each case, special treatment recommended and a visiting nurse remains to follow up cases. Within four months the clinic returns and examines cases to see if progress has been made. Mothers and fathers are given instructions, doctors attending are advised and every means is taken by the board to insure recovery or amelioration.

PICKLE PLANT AT BARROWS

Barrows, Minn., July 24.—The Barrickling plant at Barrows is being constructed, a large force of carpenters putting up the structure and installing machinery, etc. Dozens of farmers about Barrows planted cucumbers, etc., and will keep the station busy this fall.

DIED SUDDENLY

Mrs. Lula S. Taylor, of Ottawa, Kansas, Died of Heart Disease at Merrifield

Mrs. Lula S. Taylor, age 69, wife of Orland Taylor of Ottawa, Kansas, died suddenly of heart disease Monday afternoon at 4 o'clock while seated in a chair at the home of her brother-in-law, A. C. Taylor of Merrifield. The remains were sent today to her former home accompanied by her husband and brother-in-law. She leaves a foster son who is now in the navy.

Mr. Taylor is in the cold storage business in Kansas. In company with his wife he had set out on a tour visiting many friends and relatives. From Kansas they had proceeded to St. Jo, Missouri; Harlan, Iowa; Merrifield and were then to go to Idaho and California, when death interrupted the trip.

A. C. Taylor, who owns a farm three miles northeast of Merrifield, had not seen his brother for ten or twelve years. The sympathy of the community is extended to the bereaved family.

LEFT THE ICE CREAM

Two Burglars Break Into Dres-Don Co. Offices, 504 Front Street, Steal Some Change

Two burglars cut a hole in the panel of the back door of the Dres-Don ice cream making establishment 504 Front street last night, opened the unlocked safe, stole some change, left the checks and did not disturb a single one of the many big freezers containing the velvet cream. Police are following clues.

DISPATCH PRIZE CONTEST UNDER WAY

Boys and Girls Under Fifteen May Win Free Tickets to the A. G. Barnes Circus

ANSWERS ARE COMING IN NOW

You Can See the Whole Show Free if You Will Enter the Dispatch Prize Contest

Did you read the conditions of the Brainerd Dispatch Wild Animal Prize Contest now on, in which you may win free tickets to the A. G. Barnes Big Four Ring Wild Animal circus, which will exhibit in Brainerd on the afternoon and evening of Tuesday, July 31. The particulars of the contest were in yesterday's issue of the Dispatch. Better get a copy at once and read it. Already answers are beginning to come in, and by 6 P. M. July 31 25 boys and girls of this city and vicinity will be the happy winners of prizes.

The Barnes Big Wild Animal Circus is greater this year than every before. Beside the two saw-dust rings, a big elevated steel arena has been built, in which the most dangerous acts, featuring 30 ferocious, full-grown African lions, under command of the celebrated Herr Louie Roth, do amazing things which lions never in history did before.

And, kiddies, there are the cutest little baby elephants and baby monkeys, and baby llamas and tiny baby ponies, baby goats and a baby tiger too. It's simply side-splitting to watch them try to imitate their mammas, and their mammas treat them just like your mamma and papa treat you; they scold them when they are naughty and caress them when they are good and play with them to keep them happy and are just as anxious to have them taught to do tricks and learn new things as your own mamma and daddy are for you to go to school and remember all the things the teacher tells you.

You know the llamas come from way over the Andes mountains in South America, where they are sometimes used for beasts of burden, but these animals are very difficult to handle, for they are so shy and timid and when you want them to do things they do not want to do, they spit at you real ugly like, and this spit is very ill-smelling and burns the flesh, so animal trainers have never taught them to do anything until Mr. Barnes made a special study of their peculiar habits and educated a herd of them to perform almost like ponies. Then there are performing zebras, too. These are the first group to be educated to circus tricks. They play a see-saw game, besides rolling a barrel. You see, these things are amusing besides being educational.

And the pigs. You must see those clown pigs, with old mamma pig making them mind, and the funny things they do.

Then there's "Holly Moses," the sacred black camel, to get which Mr. Barnes' own men had to cross the burning sands of far-away Hareek in mystical Arabia and at the expense of terrible suffering and grave danger to their lives, bring him back here for you to see. It's the only black camel being exhibited in the world.

And in addition to all these things there are 1000 wonderful animals, each and every one trained to do more tricks and acts than any dog you ever saw.

Just think of it, two big rings and a steel-barred arena so arranged that you may see all the acts, no matter in what part of the big tent they are taking place; 40 animal clowns, the funniest you ever saw; 550 beautiful ponies and horses, the smallest and the largest and most finely trained in the world; 150 trainers, the most expert on this globe; careful, proficient, yet brave and fearless; six concert and military bands, four callopes, a big pipe organ, 506 attendants in brilliant uniforms; 65 big sensational acts, each and every one a thriller or a side-splitter; lions, horses, bears, dogs, pigs, tigers, all working together and good friends—imagine it—think of caravans of camels, groups of elephants, sacred cattle, seals, sea lions, chimpanzees, orang-outangs, apes, monkeys, kang-

MINNESOTA SCENIC HIGHWAY MEETING

Association to Have its Annual Gathering at Sauk Center on Friday, August 3

BRAINERD MEN TO ATTEND

Highways are in Excellent Shape and Many Will Motor to Sauk Center Friday

Brainerd, on the Minnesota Highway, and which was instrumental in organizing the association will be represented at the annual meeting at Sauk Center on Friday afternoon, August 3.

Short addresses will be made by State Highway Commissioner Chas. M. Babcock, Constant Larson of Alexandria, Frank M. Eddy of Sauk Center and F. J. McPartlin of International Falls.

Asa M. Wallace, president of the Sauk Center Commercial club, will welcome the delegates, and a smoker will be held in the evening. Officers will be elected. Highways are in excellent shape and the greater number of delegates will make the trip in cars.

John K. West, Detroit, is president of the association and M. N. Koll, Cass Lake, is secretary. Brainerd delegates will motor to the meeting and give a first hand report on the roads.

aross, zebras, goats, lions, tigers, leopards, pumas, jaguars, bears, dogs, chickens, pigs, all working together, marching, doing high dives, juggling fire, riding each other, posing, tumbling, making music, eating, drinking at tables, doing trapeze work. Why, it's the most wonderful, most thrilling, most glittering, most rib-tickling show in the world, and all the while A. G. Barnes, that Edison of animal science, is right in that tent, ready to step in on the instant and quiet the animals or make them do their act.

And you can see all this free if you will enter the Dispatch contest and think up the names of wild animals. Get a Dispatch of yesterday and read up on the contest.

WILL RAISE SHEEP

The federal authorities through the agricultural department are endeavoring to encourage the raising of sheep on the cut-over lands of northern Minnesota, Wisconsin and Michigan. The scarcity and prevailing high prices of wool has caused the Red Cross to call upon the government for aid and as a result the call has been sent out for sheep owners to establish ranches in the cut-over regions on both federal and state lands.

E. G. Quamme, president of the Federal Farm Loan Bank of St. Paul, is the first man to answer to the call of the government to raise wool to supply the army. The state legislature last winter passed a law permitting the leasing of lands that for reasons could not be sold and State Auditor J. A. O. Preus has just received an application from Mr. Quamme for the lease of 400 acres located on a peninsula on Mantrap lake, Hubbard county. Eighty acres of the tract are salable and Mr. Quamme intends to purchase that tract and erect permanent buildings and make necessary improvements. The land selected is especially adapted for a sheep ranch in that it affords protection against the ravages of wolves, as a high woven fence will be placed across the narrow neck of land and thereby protect the sheep herd from the wolves of the mainland. Mr. Quamme is enthusiastic over the project and believes there is a future in the sheep industry for the reason that the cut-over lands in the northern portion of the state, dotted with innumerable lakes and streams, are peculiarly adapted for sheep and cattle ranches.

JOINT PICNIC OF LODGES

Sons of Norway and the Scandinavian American Fraternity to Picnic at South Long Lake

AT THE GUST SODERMAN FARM

Sons of Norway Convention Secured for Brainerd by Ole Stene, Meet Here in 1919

The first annual joint picnic of the Sons of Norway and Scandinavian American Fraternity, will be held at Gust Soderman's farm at South Long lake on Sunday, July 29.

All are asked to take their lunch baskets along. Coffee will be served free. There will be boating, bathing and other amusements. Buses have been engaged and will carry passengers at 60 cents for the round trip, leaving 6th and Laurel streets at 8 in the morning.

On Saturday evening at the meeting of the Sons of Norway, Ole Stene, Brainerd delegate, will tell of his success in getting the next convention of the order in Brainerd for June, 1919. Changes in the constitution made now have the annual meetings held every two years instead of annually.

RESOLUTIONS

Whereas, Brother Jacob Johnson, member of Pine Tree Lodge No. 133, B. R. C. of A., has been called to his reward, and

Whereas he was a most worthy member, helpful to others, kind to all and regarded as a true companion and one always willing to advance the interests of the lodge, therefore,

Be It Resolved, that we deplore his being called away and extend to the bereaved family our deepest sympathy and further,

Be It Ordered, that our charter be draped for thirty days, that a copy of these resolutions of condolence be printed in the Daily Dispatch, that they be spread on the records of the lodge and that a copy be sent the family.

F. J. ENGELHART,
K. O. BERGSTRAND,
Committee.

GIVES ADVICE TO YOUTHS

Cardinal Gibbons Says They Owe All to America.

Baltimore, July 24.—Cardinal Gibbons on his eighty-third birthday sent the following message to the young Americans about to be enrolled in the new national armies:

"Be Americans always. Remember that you owe all to America and be prepared, if your country demands it, to give all in return."

"And," he added, "I am sure they will bring honor and credit to the country of their birth or adoption."

The cardinal received many telegrams of congratulation.

French May Again Hunt Game.

Paris, July 24.—Game hunting will be allowed this year for the first time since 1913. The season will open only after the crop has been harvested and will be short. The government has decided this is necessary to protect agriculture against the ravages of game, which has multiplied greatly during restricted hunting.

Society People.

"Oh, yes; they are society people," said the shopkeeper. "They belong to our first and last families."

"So mean 'first families'?"

"No; first and last—first to ask credit and last to pay."—Philadelphia Record.

YIELD IN SHIPPING ROW

General Goethals and Board Are Working in More Harmony.

Washington, July 24.—Steps to settle the shipping board row will be taken by President Wilson, it was said at the White House, in the next twenty-four hours.

Officials in close touch with the situation believe Chairman Denman and Major General Goethals, manager of the board's fleet corporation, will be told they must compose their differences and start immediately on the government's shipbuilding program.

In support of this belief there are indications that the shipping board and General Goethals are working on a more harmonious basis than since first disagreeing over the question of wooden ships.

The angel Uriel, the name signifying "the fire of God," is named only in II Ezechas iv, 1, 20; v, 20; x, 28.

MINED IN MINE

(By United Press)

Halifax, N. S., July 25.—Several were killed and 51 entombed in a coal mine at New Waterford caused by an explosion.

Believes in Final Victory for Russia

(By United Press)

Petrograd, July 25.—"Yes, I believe in final victory for Russia, otherwise life would not be worth living," Gen. Brusiloff says, and he thinks war will end in August.

New Telephone Directory

Will Go to Press

Wednesday, August 1st

All orders placed for telephones up to this date will appear in next directory.

Healthy Skin

DEFENDS ON KIDNEYS.

The skin and the intestines, which work together with the kidneys to throw out the poisons of the body, do a part of the work, but a clean body and a healthy skin depends on the kidneys. If the kidneys are clogged with toxic poisons you suffer from stiffness in the knees in the morning on arising, your joints seem "rusty," you may have rheumatic pains, pain in the back, stiff neck, headaches, sometimes swollen feet, or neuritic pains—all due to the uric acid or toxic poisons in the blood. This is the time to go to the nearest drug store and simply obtain a 50c. package of Anuric, the discovery of Dr. Pierce of Buffalo, N. Y. Then drink a cup of hot water before meals, with a Anuric Tablet, and notice the gratifying results. Anuric will help you, because it flushes the kidneys of impurities. You will find it 37 times more active than Afta. Dissolves uric acid as water does sugar.

SUFFERED FROM BACKACHE—DIZZY SPELLS.

Little Falls, Minn.—"During middle life I suffered with severe backaches, hot flashes, headaches and dizzy spells. I saw Dr. Pierce's Favorite Prescription advertised and bought a bottle. It gave me immediate relief and the second bottle completely cured me. This was ten years ago and I am still in the very best of health, due, I feel assured, to the help the Prescription gave me at this critical period and I am glad to recommend it."—Mrs. E. J. Olson, 307 Fifth Street, N. E.

class condition. Price reasonable, terms if desired. Woodhead Motor Co. 1141-361f

OR SALE—4 year old mare, thoroughly broken, weight 2400, or will trade for steady older team, not over 8 years, used to farm work, same weight, call at rural 20-4. 1172-421f
